

EDP / Bootcamp Name:	E-Step Bootcamp
Date:	05-06-2021
Venue:	Virtual
Duration of Event:	9 AM – 5 PM (8 Hours)
No. of Participants:	696

The Oxford college of Science Participant List	
1	Nancy Mary J
2	Jeyanth Clinton S
3	Selva Subramanian E
4	Megha K.V.
5	Jasmine Thomas
6	Prachi Prawna
7	Vinay G. Malak
8	Avantika Shukla
9	Jaya Shastri
10	Shalini Singh
11	Devanshi Singh
12	Manasa Channapa Shettar
13	Sreshtha Pal
14	Kiran Abraham Jacob
15	Yasar Arabath A
16	Mohan S.D.
17	Supriya
18	Leela Reddy
19	Indumathi S. Hanuma
20	Rakshanda Ghorpade

21	Saborni Ghosh
22	Murali S.S.
23	Sarmista Nayak
24	Nawade Satyam
25	Shreyasi Rai
26	Pravan Kumar
27	Sumedha
28	Tushar Bishwas
29	Priya R
30	Sarangi Sreenivasan

BIET -Participant List

	1. Kumkum S B	
	2. Nayana N M	
	3. Adarsh MV	
	4. SAMARTH A V	
	5. NIDHI C	
	6. Yashodhar G K

Activities Performed:

1: IDEATION

The foremost concept of entrepreneurship is to identify a problem and develop an idea as a solution. The next step is to find a competitor for the particular idea in the market and think about giving something better than them as a value addition to the consumer. The ideal customer for our idea or product should be identified, that means the target population that consumes our idea. We should provide better services than the competitors already that were existing in the market. The whole idea is generated on which we can work based on a market survey.

2: UNDERSTAND WHO IS YOUR CUSTOMER AND WHAT THEY NEED

Collect the customer's name before the survey. Customer description like age, employer status, working sector and other details. Know from the customer what are the needs that they want us to meet through our idea, some criteria like save time, less effort satisfying all the needs and develop the particular idea. In what way your particular product can serve better than the other products present in the market can be explained and feedback can be gathered. How good our product is technology friendly and user friendly can be surveyed. Customer is the king, so find out all their needs to fulfill their expectations to attain customer satisfaction experience

3: KNOW YOUR CUSTOMER:

To know about the particular idea or product or service, the owner conducts a survey and gets to know the customer needs and experience about the existing service and can get to know the benefits like quality, demand. Necessities and further improvement are put into consideration.

4: PRODUCT DEVELOPMENT CANVAS

we develop our product idea based on the customer need; User activities can help to find out the core purpose of the service towards customers. Function of the service should be clearly portrayed, that signifies the product. Features and components that could add extra comfort to

the customer through service have to be developed through the survey. After the whole survey for the next version update of the product redesign and rejection should be the process continued. Customer revalidation should be done before releasing the whole batch into the market for reviews. The whole efficient product is formed through various process canvas

5: BUSINESS MODEL CANVAS

Key partners should be selected through which we can extend our product into the market. Key activities and resources should be properly designed going on with the idea development. Value propositions in the core meaning that we want to convey to our customer that we will be providing through our service so that we can make the customer relationships. Proper channels should be decided through which we place our product into the market. Cost structures and revenue structures should be designed through which we can have clarity on our investment and profit. The business strategies are set up to reach the maximum customers through efficient business model plans.

EXECUTION STEP: PITCH DECK

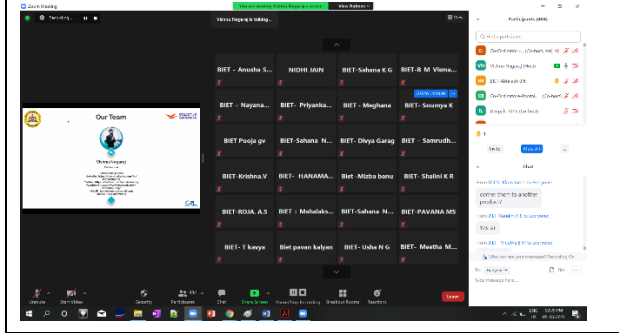

The pitch deck is the execution step where we order all our ideas based on survey and market analysis to put up into a workflow plan. The components of pitch deck involve, the problem, startup name, product workflow, the solution, value proposition, target customer, marketing and channel, market analysis, competitor analysis, revenue model and the team.

Programme Outcome:

E-Step Bootcamp organized by The Karnataka Innovation and Technology Society was an impressive and informative E-Skilling Entrepreneurship Training and Awareness Program. The program had a progression of interactive online activities that helped students to stay focused on the topic. It also hosted mentor-ship lectures giving a peek into the subject of entrepreneurship.
