GOVERNMENT OF KARNATAKA

No: TD 160 TDO 2020

Karnataka Government Secretariat,
M.S. Building,
Bengaluru, Dated: 14.07.2021

NOTIFICATION

Whereas, in the last few decades, Indian cities have made substantial progress in putting an affordable mode of public transport. Earlier the focus was on the city bus service however over a period of time many cities have started the metro operations which is playing an extremely important role in the faster movement of the people and in turn leading to faster economic growth of the cities. In addition to these the cities are having taxi services, auto services for point to point movement. Many aggregators of taxis have come in the market of mobility and are playing an extremely important role in most of the cities. On one hand there is phenomenal progress in public transport facilities as well as massive entry of aggregators in the system, on the other hand the cities are still grappling with the issues of massive traffic jams. It is happening due to large number of middle-class people still using the private vehicles for the movement. The gap in the market for the first mile and last mile connectivity is working as the main bottleneck in further use of public transport. There is an urgent need for putting up a system which can provide affordable first and last mile connectivity.

And whereas, Bike Taxi is one of the options available and many states have already started it in one form or other. Bike Taxi will promote urban mobility and will act as a first and last mile connectivity solution for citizens which in turn assist people to access the Public Transport and specially for accessing Metro Services. It will also create a flexible entrepreneurship opportunities. The Government of India in the last few years have come up with many policy framework and amendments in the Motor Vehicle Act, 1988 with the aim of enabling the states in introducing

Karnataka Electric Bike Taxi Scheme 2021

Bike Taxi in urban areas with certain restrictions to be decided by the states. The Government of India has also brought many provisions to promote electric vehicles with the aim of reducing the pollution in the cities and in promoting environmentally friendly transport solutions. The state of Karnataka has many urban centers which are grappling with the issue of traffic jam and problem of first and last mile connectivity.

And whereas, clause (27) of Section 2 of the Motor Vehicles Act, 1988 (Central Act 59 of 1988) provides the definition of a Motor Cycle which “means a two-wheeled motor vehicle, inclusive of any detachable side-car having an extra wheel, attached to the motor vehicle”. S.O. number 1248(E) dated 05.11.2014 allows registration of “Motor Cycles” both under transport and non-transport categories. In terms of clause (27) of section 2 of the Motor Vehicles Act, 1988 (Central Act 59 of 1988) Transport Vehicle inter alia means a Public Service Vehicle and in terms of clause (35) of section 2 of the Motor Vehicles Act, 1988 “Public Service Vehicle” means any Motor Vehicle used or adapted to be used for the carriage of passenger for hire or reward.

And whereas, Section 73 and 74 of the Motor Vehicle Act, 1988 (Central Act 59 of 1988) empowers the States to issue contract carriage permits for all kinds of vehicles including two wheelers. The Motor Vehicles (Amendment) Act, 2019 dated 09.08.2019 brings app-based mobility solution providers under the ambit of the Motor Vehicles, Act 1988 through the amendment to Section 93 of the Motor Vehicle Act, 1988 (Central Act 59 of 1988). The Government of India by Notification No. S.O. 5333 (E) dated 18.10.2018 has exempted the battery-operated vehicles from the provisions of sub-section (1) of section 66 which mandates every vehicle to get a permit to use it as a goods or passenger vehicle.

Whereas, the aim of providing the first and last mile connectivity for public transport and to generate self-employment opportunity, the Government of Karnataka, in public interest hereby makes the following scheme for regulating the Electric Bike Taxi and matters connected therewith, namely:-

Karnataka Electric Bike Taxi Scheme 2021

Now therefore, in exercise of the powers conferred by clause (38A) of sub-section (1) of section 2 of the Motor Vehicles Act, 1988 (Central Act 59 of 1988). The Government of Karnataka hereby makes the following scheme; namely:-

1. Title, Extent, Commencement and Application.-
