# PREFACE

## STARTUP KARNATAKA SHOWCASE

### "Innovations to Combat Covid19 Challenge"

As the world confronts the pandemic and Bengaluru being the "Startup Capital of India", Karnataka has taken a leadership position in leveraging the innovation ecosystem in the State to tackle the COVID-19 situation. The Startups expressed interest in fighting this pandemic with their innovative products/ solutions. Keeping in view of the challenges faced by the society and the Government in tackling the pandemic, the Karnataka Startup Cell, Department of Electronics, IT, Bt and S & T launched an online campaign, "COMBAT COVID-19 CHALLENGE". The campaign aimed at narrowing-down innovative products/ solutions offered by various Startups, Corporates, Institutions, NGOs/ Trust, Research Labs, SMEs, Entrepreneurs etc. across a myriad of challenges set forth by the COVID pandemic.

Karnataka Startup Cell received 356 applications from Startups/ Institutions across multiple sectors such as Agriculture, Healthcare, Biotechnology, Education, Food & Beverages, Logistics, Robotics, Automotive, Telecommunication & Networking, Travel & Tourism and many more. These products/ solutions have been evaluated by a team of experts nominated by industry associations and based on the scores awarded, 103 applications were shortlisted. Finally, 16 startups whose products/ solutions which were deployed and had basic compliance certifications are featured in this booklet.

Karnataka Startup Cell would like to highlight and thank all the industry associations and jury members for evaluating the applications.

Meet the 16 Startups whose efforts in developing products/ solutions combatting COVID-19 are showcased. Also, this booklet contains list of innovative product / solutions for combating COVID-19.

KARNATAKA**

"Innovations to Combat Covid-19"

Agamin Innovations Private Limited

<https://agamin.ai/>

**Sector:** IT/ITES

**Qonch**

### Product Description:

**Agamin Innovations Private Limited:** Qonch is an IOT based platform with smart ID card holder which makes businesses, schools, colleges and university to re-open with confidence and implement social distancing norms on real time and contact trace in case of any breakouts. In addition to specific use case the platform also allows to manage attendance, geo-fencing, crowd management asset management etc.

**STARTUP  
KARNATAKA**

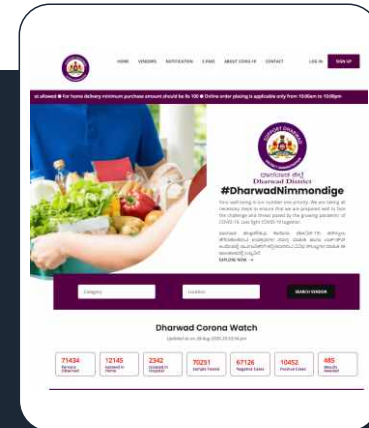

“Innovations to Combat Covid-19”

**AMPWORK**

AMPWORK Private Limited

<https://www.ampwork.com>

**Sector:** IT/ITES

**Letstart**

## Product Description:

**AMPWORK Private Limited:** A platform where Business, Governance, People and Health Care, work together to help government to UNDERSTAND, MONITOR and EVALUATE the current situation. They have already built a platform where People, Businesses and Administration uses the platform where verified businesses supply daily needs to the people. Used by Kodagu District and Dharwad District.

**STARTUP  
KARNATAKA**

"Innovations to Combat Covid-19"

Biodesign Innovation Labs Private Limited

<https://biodesigninnovationlabs.com>

**Sector:** Biotech

**RespirAID**

### Product Description:

**Biodesign Innovation Labs Private Limited:** RespirAID is a safe, reliable, portable, affordable alternative for prolonged manual ventilation that delivers intermittent positive pressure ventilation with essential ventilator parameters and provides automated respiratory assistance for patients. It can be used during emergency care, transport ventilation and post-operative anaesthesia.

KARNATAKA**

"Innovations to Combat Covid-19"

**BLACKFROG**  
TECHNOLOGIES

Blackfrog Technologies Private Limited

<https://blackfrog.in>

**Sector:** Healthcare

**Emvlio**

### Product Description:

**Blackfrog Technologies Private Limited:** Emvlio is a portable medical-grade refrigeration system for the safe transport of biologicals like vaccines, blood, serums etc. that require strict temperature-control. The product is now being used by District Hospitals in Karnataka and TN for the transport of COVID-19 specimens (nasal & throat swabs) while ensuring the samples are not thermally-degraded or contaminated, thereby preventing risks of false-negatives arising during testing.

**STARTUP  
KARNATAKA**

"Innovations to Combat Covid-19"

Cocoslabs Innovative Solutions Pvt Ltd.

<https://pixuate.ai>

**Sector:** IT/ITES

**Thermal analytics to check elevated body temperature for multiple people simultaneously.**

## Product Description:

**Cocoslabs Innovative Solutions Private Limited:** Pixuate is an AI based software which uses a thermal camera when placed at the entrance of public places, can detect body temperature of people entering the premise, without stopping them. This is done at a safe distance of 3-5 meters. Also, the temperature reading of everyone is recorded by the software, and real-time alarm is given if someone with high temperature walks in.

"Innovations to Combat Covid-19"

Creintors Automation Solutions Private Limited

[www.cautomate.com](http://www.cautomate.com)

**Sector:** Product Design and Manufacturing

**Thermoxy (Temperature,  
Pulse Rate and Oxygen Level measurement)**

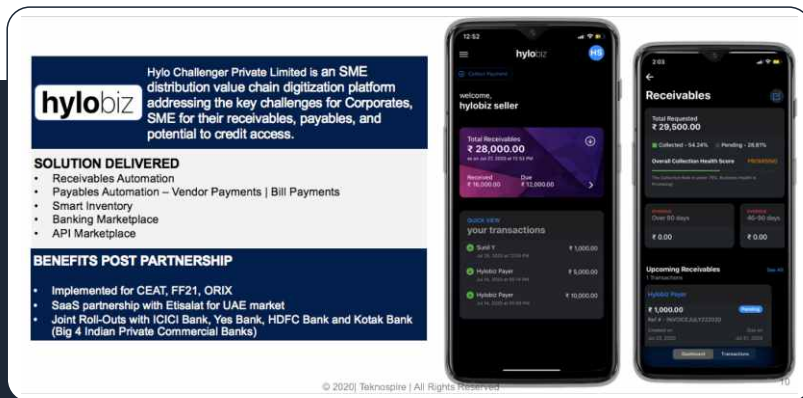

### Product Description:

**Creintors Automation Solutions Private Limited:** Thermoxy (Temperature, Pulse Rate and Oxygen Level measurement) is specifically designed to measure the human body parameters like temperature, pulse rate and oxygen level and display each parameter on the device screen. The real time data such is transferred to the network by both wireless or through LAN. They have also given options for adding any intelligence tools using the data collected.

**HYLO Challenger Private Limited**

[www.hylo.biz](http://www.hylo.biz)

**Sector:** Fintech

**Hylobiz - digitising Receivables | Payables and working capital for SMEs**

## Product Description:

**HYLO Challenger Private Limited:** Hylobiz - digitising receivables | payables and working capital for SMEs - Post COVID, SMEs value chain is badly disturbed on their cash flows and working capital. Moreover, physical cash and cheque collections is no more comfortable or safe. hylobiz digitises the whole process of sending invoices, automated reminders, collections / payments, automated reconciliations, working capital possibilities from Banks/ NBFCs, insurance services through a single window platform. It would help the SME value chain which is the core of any country's economy to bounce back sooner.

**STARTUP

"Innovations to Combat Covid-19"

**Touchless ID**

Touchless ID Pvt Ltd.

[www.identity.io](http://www.identity.io)

**Sector:** IT/TES

**Touchless Mobile Attendance System**

## Product Description:

**Touchless ID Private Limited:** Touchless ID replaces HW scanners. We use the mobile phone camera to take a picture of your fingers and extract fingerprint biometrics. These biometrics are compatible with Govt databases like Aadhaar and so on. The single biggest cause of disease transmission is based on what we touch, the germs we leave behind and the germs we pick up from what other people have touched. During these times, we won't allow our loved ones to touch a HW scanner as the scanner could become the very epicentre for the spread of disease. Our product eliminates the "touch" in the attendance system.

**STARTUP  
KARNATAKA**

"Innovations to Combat Covid-19"

Turtle Shell Technologies Pvt Ltd.

[www.dozee.io](http://www.dozee.io)

**Sector:** Healthcare

**Dozee**

### Product Description:

**Turtle Shell Technologies Private Limited:** Dozee is India's only contactless health monitor. It is a thin sensor sheet that goes below the mattress and monitors heartbeat, respiration, oxygen saturation and more and sends this information to doctors remotely. Without any wires, patients can be continuously monitored. Nurses don't have to physically visit patients to check their health vitals, reducing their exposure to infection and workload. Doctors can also put custom alerts on each patient to identify patients that are deteriorating, and hence can timely transfer them to ICU. Dozee is being used in 20+ hospitals and covid centres in remotely monitoring patients. Dozee is also being used in monitoring thousands of patients in home, increasing India's bed capacity by thousands. Dozee has proven life-saving in 47 cases already.
